

Mariposa Cruises *Beyond The 5 Senses* Open House Made Waves May 7th, 2008

Despite the rain and cold weather, the mood of Mariposa Cruises' *Beyond The 5 Senses* Open House on May 7th could not be dampened. Over 300 guests enjoyed the multi-sensory treat as they travelled from deck to deck on each of the five decorated ships docked on Toronto's waterfront in celebration of Mariposa Cruises' 2008 season.

At registration guests were given a passport which they used to travel from the elegantly Tropical *Captain Matthew Flinders* to South Beach on the *Mariposa Belle*, to the *Oriole's* Jungle and then the Hot Latin *Northern Spirit*, where guests were then encouraged to *escape the ordinary* and experience Toronto from the water as the Northern Spirit embarked on a 30-minute cruise around the Toronto Harbour.

Mariposa Cruises' exciting 2008 season includes NEW menus with fresh food prepared daily by professional chefs, the NEW signature cocktail *The Mariposa Martini*, and the newly transformed *Torontonian*, which was designed by Toronto graphic artist Wendy Biss and hand-painted by local professional artist David Winfield, who used the vessel as a canvas covering it with brightly coloured butterflies, turning the ship into a floating work of art.
