

A tasty getaway cruise that's close to home

The Moveable Feast *Marty & Avrum*

In these times, it is sometimes impossible to escape. Mariposa Cruises offers one of the best getaways — and you don't have to leave our city.

It's hard to describe the sensational voyage that awaits you. We took two cruises, the din-

ner cruise and the buffet brunch cruise. They welcome you aboard with a staff whose one concern is you.

As your table is called, a buffet awaits you. There is a salad that yells fresh from the farm. The bread is made fresh and it's tasty. They had a herb chicken that was juicy and well seasoned. It melted in your mouth.

There were veggies and more veggies all with smiles. The roast beef is all hand carved and it tastes like Satur-

day night at mom's house.

After dinner a full, fresh cut fruit tray is served and there were four party-size cakes. Once one vanished another reappeared given.

The boats are filled with young and old. One young couple couldn't afford to get away, this was their night of magic. A senior couple was celebrating 50 years of marriage. They never stopped dancing on the top deck.

They have seven different boats, with 34,000sq feet of meeting and event space. This

is a jewel at the foot of our amazing city.

The brunch was full. Everything was made fresh — and talk about the assortment and flavours — I loved the baked goods too.

We are talking to them about bringing some of our famous TV chefs to the boat. It would be a night of cooking class, dinner, dancing and all out fun.

There is full bar available and the ride is gentle. I can tell you if you want to have a night that makes you feel you are

king and queen: Welcome aboard the cruises of falling in love again, or maybe just great moments with a good friend.
